

# Town of Portola Valley Plant Lists

The following pages contain lists of recommended and discouraged plants for the Town of Portola Valley.

Table of Contents	Pages
Annual / Summer Dormant	1.1 - 1.3
Grasses / Grasslike	2.1
Perennials / Groundcover	3.1 - 3.3
Shrubs	4.1 - 4.3
Trees	5.1 - 5.3
Discouraged Plants	6.1 - 6.3

## Legend

 Portola Valley Native	 Tree (Conifer)	 High Water	 Low Fire Hazard*
 CA native	 Shrub	 Moderate Water	 High Fire Hazard*
 Non-Native	 Perennial	 Low Water	 Undefined
 Tree (Evergreen)	 Groundcover	 Very Low Water	 Varies
 Tree (Deciduous)	 Grasses / Grasslike		

\* Fire hazard is indicated, where known, based on existing fire safe literature and the following criteria:

"High fire hazard" plants have characteristics that can make them highly flammable, such as very small leaves, dense twiggy growth, and aromatic oils.

"Low fire hazard" plants have characteristics that make them less likely or slower to catch fire.

High fire hazard plants can be appropriate in some gardens with adequate consideration for location, maintenance and irrigation.

For additional information and resources, see the Conservation Committee's guidelines for [Understory Habitat and Defensible Space](#)
